ABOUT ME

I have been working as a front-end developer in angular for more than two years, but I discovered my passion for programming much earlier, as early as middle school. I am currently knowledgeable about front-end concepts and technologies, as well as in the back-end and databases, and I am learning about the AWS cloud. Privately, I like sports, especially football and cycling, music and also technology in any edition.

WORK EXPERIENCE

Front-end developer
CreateCtrl Poland (05.2022 - present)
Development of the frontend layer of the REST product. Working closely with the backend team, UI/UX, product management to achieve the best results in the shortest possible time. Working with angular, HTML, SASS, AWS, GIT.
